

~~SECRET~~

OSA 4635-63

21 August 1963

MEMORANDUM FOR: Chief, Personnel Branch, OSA  
 SUBJECT : Household Effects - Transportation  
 REFERENCE : OSA 4222-63, dated 16 August 1963,  
 Same Subject

25X1A

1. Both [redacted] and I discussed the referenced memorandum and the following is submitted for your information.

## 2. Assumptions:

25X1A

[redacted] a. Subject is being assigned from a TDY point to a ZI PCS point.

b. Subject's PCS point is now Washington, D.C.

c. Subject's HHE are now in storage in Washington, D. C. at Agency expense.

3. If the above is correct, Subject is authorized up to the maximum shipment of HHE which is currently authorized for a domestic PCS move, i.e., according to reference, 2500 pounds. The fact that Subject has quite possibly HHE in excess of this amount in storage at Government expense by virtue of his TDY at [redacted] has 25X1A no bearing on his authorized shipping allowance.

4. The Joint Travel Regulations, para 8007-7 is interpreted to mean that effects placed in storage under the provisions of this paragraph may be shipped within authorized allowances (whether domestic or overseas movement) to the next permanent duty station be it either a domestic or overseas movement. 25X1A
